Hot-tub Safety Instructions

WARNING – wherever there is water there is a danger of drowning, please act sensibly and be aware.

Please remember that the hot tub is not a play area. The following simple rules are no more than common sense, and are designed for your safety and well-being.

- Before you get in please take a shower first and remove all jewelry. The water in the tub is kept clean by filters and chemicals and is changed before and after your stay. Please do not use it as a bath! Remove any body lotions and oils as these damage the filters and make the water cloudy. This may result in your hot tub being decommissioned whilst we rectify the problem. Long hair must be tied back.

- To remove the cover, carefully unclip the holding straps, and standing at the side of the hot tub, fold back the front half of the lid and lift off the lid. IMPORTANT - this should be carried out by two people, one either side of the hot tub. Simply reverse this process to replace the lid, do not stand the lid adjacent to the hot tub and make sure it is kept on the cover holder at all times.

- Please do not leave the hot tub unattended at any time while the cover is off.

- CAUTION DO NOT TOUCH OR REMOVE THE BRIQUETTES FROM THE DISPENSER – THE DISPENSER WILL BE FLOATING AROUND, PLEASE DO NOT REMOVE THIS FROM THE HOT TUB

- DO NOT add any detergents or foaming agents like bubble bath, shower gel or essential oils to the water as this will damage the filters and render the hot tub unusable.

- The temperature on your hot tub is set to 37/38°C - this is the recommended temperature for hot tubs and cannot be altered. Press the light button if you want illumination. Press the jet button and then select different jets with the handles and levers around the tub. Press the jet button again to turn it off.

- It is recommended that users limit continuous periods of time in the hot tub to 15 minutes and users should not submerge their heads in the hot tub. For your own safety and well-being do not use the hot tub if you have had a large meal within the last hour or after the consumption of alcohol.

- PLEASE REPLACE THE COVER AS SOON AS YOU GET OUT AND FASTEN THE CLIPS as leaves and other debris can blow in and block the filters.

- Take care of the wooden steps and the decking – they can be slippery when wet or icy. Use non-slip footwear.

- Please inform reception immediately if the hot tub appears faulty, or is in an otherwise unsuitable condition.

- Children under the age of 7 are not allowed to enter the hot tub under any circumstances. Children between the ages of 7 and 16 years of age must be accompanied in the hot tub at all times by an adult.
Hot-tub Safety Instructions

- Do not use the hot tub if you have had diarrhea or repeated vomiting within the last 14 days.
- Pregnant women should not use hot tubs.
- Clients with heart disease, high blood pressure, diabetes or other medical disorder should check with their doctor before using a hot tub.
- DO NOT TURN OFF YOUR ELECTRICITY SUPPLY TO THE HOT TUB.
- We ask that you respect other customers and keep noise to a minimum after 11pm

FOR YOUR INFORMATION YOUR HOT TUB WILL BE TESTED EVERY DAY BY OUR TEAM. We may need to access your decking to carry out the test.

For your safety, the following are prohibited in or around the hot tubs:

- Food and drink, alcoholic or otherwise
- Smoking
- The use of electrical equipment
- Glass containers
- Diving or jumping

We will not accept responsibility for mishaps unless we are at fault.

🌟 Enjoy the wonderful experience of your own private hot tub under the stars! 🌟

I confirm that I have read and understood the terms and conditions of this hot tub disclaimer and I understand I will be charged for any damage caused due to its misuse.
